

Vegetable Academy

#INHERITYOURFUTURE FORUM, VIENNA, 21 NOVEMBER 2018 DR. ANTONIA MEHNERT - REGIONAL MANAGER

Societal Challenge

- Alienation of Society from Nature
- Food Waste
- Unhealthy diets

Our Solution

Gemüse Ackerdemie

Every child should have the opportunity to learn in and from nature about food production, protection of soil and healthy nutrition

Impact

More appreciation for nature and food production

"I never would have thought that it takes so much effort to grow vegetables ."

The INHERIT project (2016-2019), coordinated by EuroHealthNet, has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 667364

The Vegetable Academy is a....

"ready to use" education model and praxis-oriented program for schools and kindergarten aiming to strengthen the relationship between children and nature as well as children's knowledge about their food's origin.

Implementation

- Students plant and grow vegetables
- Learn about food production
- Support local and organic farming
- Create green spaces

intergenerational learning between students, teachers, mentors and VA team

DEIN ACKERTEAM

- Healthy nutrition \rightarrow less waste
- entrepreneurial qualities: pricing and selling vegetables
- prepare the field for the next crop thereby taking responsibility for future generations.
- Learning about related global issues

The INHERIT project (2016-2019), coordinated by EuroHealthNet, has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 667364

Impact Analysis

Yearly analysis and documentation. Impact measurement has shown changes in:

hilfe für helfer

Lessons learned

- Scaling with help of *Regional Social Entrepreneurs*
- leadership in quality through continuous impact measurement
- Widely known brand through positive communication
- Long lasting partnerships at eye level

Potential

- More full-time schools
- Commitment by government to invest in education for sustainable development
- additional programs to scale impact
- "plug-in" versions imaginable in different national contexts

Thank you for your attention!
